

2016 INCOME DISCLOSURE STATEMENT

Jusuru International, Inc., has a compensation plan designed to reward its Independent Representatives (iReps) for building personal sales volume through retail and wholesale customer purchases, building team sales volume by sponsoring a marketing team, and by training and motivating their marketing team members to generate team sales volume. iReps are not compensated for sponsoring activity, but are paid on the product sales volume generated by personal customers, and by customers and iReps in their marketing team. As iReps move up the compensation plan ranks, they become eligible for additional earning opportunities. This document provides statistical, fiscal data about the average commissions earned by Jusuru iReps, based on their sales activity and rank.

ANNUAL DATA

Jusuru International, Inc., does not guarantee any level of income or earnings to any Independent Representative. These figures should not be considered as guarantees or projections of your income. Earnings from the Jusuru Compensation Plan depend solely on sales and each Independent Representative's skill, ability and personal application.

Earnings totals include Retail Customer Commission, Wholesale Customer Commission, Fast Start Bonus, Elite Bonuses, Elite Matching Bonuses, Team Commission, Check Match Bonus, Consistency Bonus, all Leadership Pools, and Promotional Bonuses pursuant to the Jusuru Compensation Plan. These statistics do not account for expenses that may be incurred by iReps, and they do not include some bonuses or incentives, such as 3 For Free or expense-paid trips, that may be earned by qualified iReps. Average earnings are derived from January 2016 through April 2016 commission periods. ENT Gold earnings represents the top ten incomes, regardless of rank, in their highest paid months. The annual earnings have been calculated taking the monthly income per Rank, and multiplying it by twelve months. Percent of iReps is the average number of iRep paid at that Rank, divided by the average total number of iReps who earned a commission. Average annual earnings of all iReps who earned commissions is \$6,675.48, and is based on the monthly average total commission paid, divided by the monthly average iReps paid, multiplied by twelve months. On average, 25% of iReps who are Commission Active earn a commission. iReps who did not earn a commission are not part of the iRep percentage quotient. Graph not drawn to scale.
